Instructions to Designers

These Sections are effective immediately and shall apply to all projects, except those projects where the implementation of the new criteria will require substantial cost or schedule changes. In such cases, the Designer shall contact the Department’s Project Manager to determine how to proceed.

These Sections are intended for use as a guide in the planning and design of a highway lighting system (Section 11) and the electrical portion of a traffic signal installation (Section 12) that conforms to Department policy. Both Sections will provide a means of developing uniformity in the design and plan preparation of highway lighting systems and traffic signals.

Sections 11 and 12 are to be used by Designers along with the following:

- Sample Electrical Plans contained in the *Sample Plans*, October 1996, issued via BDC96PR-002 and to be updated via BDC98PR-011 in the near future.
- Project Scoping Checklists for Office of Traffic Signal and Safety Engineering; and Division of Operations (Regional Electrical and Traffic Engineering) contained in Section 3.1 of the *Procedures Manual* and to be updated via BDC97PR-013 in the near future.
- Guidelines for Roadway Plan Development contained in Section 6.1.2 and 6.1.4 of the *Procedures Manual* and to be updated via BDC97PR-013 in the near future.
- Scope Development and Design Development Guidelines for Traffic Signals and Lighting Systems contained in Section 16 of the *Procedures Manual* and to be updated via BDC97PR-013 in the near future.

Sections 11 and 12 of the NJDOT *Design Manual - Roadway* are metric versions of the approved English versions dated May 14, 1992, with the following subsequent revisions:
